Expert Summit on Food Security – Critical Research and Development Project Needs for a Safe, Sustainable and Sufficient Food and Feed Supply

29–30 June 2009

Vienna, Austria

The aim of the meeting is to bring together a group of experts in grains, agriculture and socio-economics, both scientists and technologists, and governmental persons, from across the world to determine critical research and development project needs and related funding schemes in the grains- and crops-related areas in response to the world staple food crisis and the deliberations of the FAO's Conference on World Food Security held in Rome in June 2008. A combination of plenary presentations and round table working groups will focus on issues such as:

1. Food security,
2. Food safety,
3. Nutrition and health,
4. Future breeding programmes and use of biotechnology for food, feed and renewable energy production,
5. Sustainable agriculture through co-operation between industrialized and developing countries, respectively.

Participation at the Expert Summit is by invitation only, please find a more detailed outline at http://www.icc.or.at/Expert_Summit.pdf
