# Quality Assurance and Safety of Crops & Foods

*Quality Assurance and Safety of Crops and Foods* is an international peer-reviewed journal publishing scientific primary research papers and review papers in the areas of foods, crops, cereals, grains, food safety and quality, food security and food technology. This journal publishes research papers from around the globe with the major focus on the research and developments of new analytical tools, methods and equipment and the improvement of existing tools for assuring food quality and safety. It targets cereals, crops and other foods and feeds, refined products and ingredients; to ensure traceability and authenticity; to contribute to food security; and to describe the technologies associated with harvesting, storing, processing and manufacturing of crops and foods, feeds, ingredients and other refined products. The scope of publications covers also other disciplines related to food and feed quality and safety, such as legal requirements, regulations, socio-economic impact, globalisation and trade, food security, climate change, emerging issues, international organisations and agreements.
